HS801 Headset

**Before you can use
your Bluetooth®
headset you must:**

- 1. Charge your headset for 2 hours.**
- 2. Turn on your headset.**
- 3. Turn on your phone's Bluetooth feature.**
- 4. Pair your headset and phone.**

1

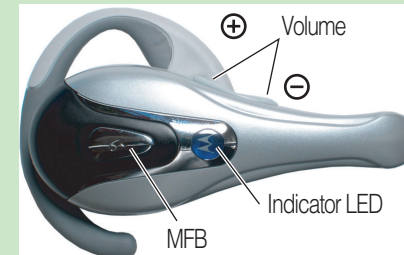

**Charge Your Headset
For 2 Hours.**

1. Plug the Motorola phone charger into the back of the headset, with the charger's release tab facing down and the headset facing up. The indicator LED turns on.
2. When your headset fully charges (about 2 hours) the indicator LED turns off.

2

Turn On Your Headset

Hold both the MFB and one of the volume buttons until the LED turns on. When the headset is ON the LED flashes every 3 seconds.

3

**Turn On Your Phone's
Bluetooth Feature.**

Bluetooth power option is OFF by default.

Bluetooth power option must be ON to search for devices.

Find this feature on your Motorola phone:

≡ > Settings > Connection > Bluetooth Link > Setup >

Scroll to **Power:**

Select **Change.**

Scroll to **On.**

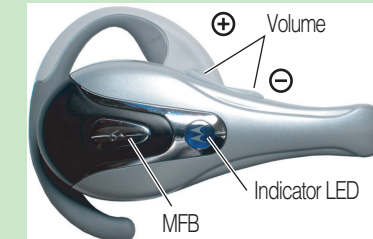

Press **Select.**

For other phones, please refer to your phone's user's guide.

4

**Pair Your Headset and
Phone.**

You must electronically pair your headset and your Bluetooth enabled (📶) phone before you can make a call.

1. Press one of the volume buttons until the indicator LED lights steadily.
2. Perform a device discovery from your Motorola phone:

4

Continued. . .

Find this feature on your Motorola phone:

≡ > Settings > Connection > Bluetooth Link > Handsfree > Look for Devices

3. Select Motorola HS801 from the list of Bluetooth devices.
4. Select **YES** to bond with the Motorola HS801.
5. Enter the passkey **0000** on the phone. Select **OK.**
6. The LED indicator flashes rapidly when pairing is completed.
